

Dear Family,

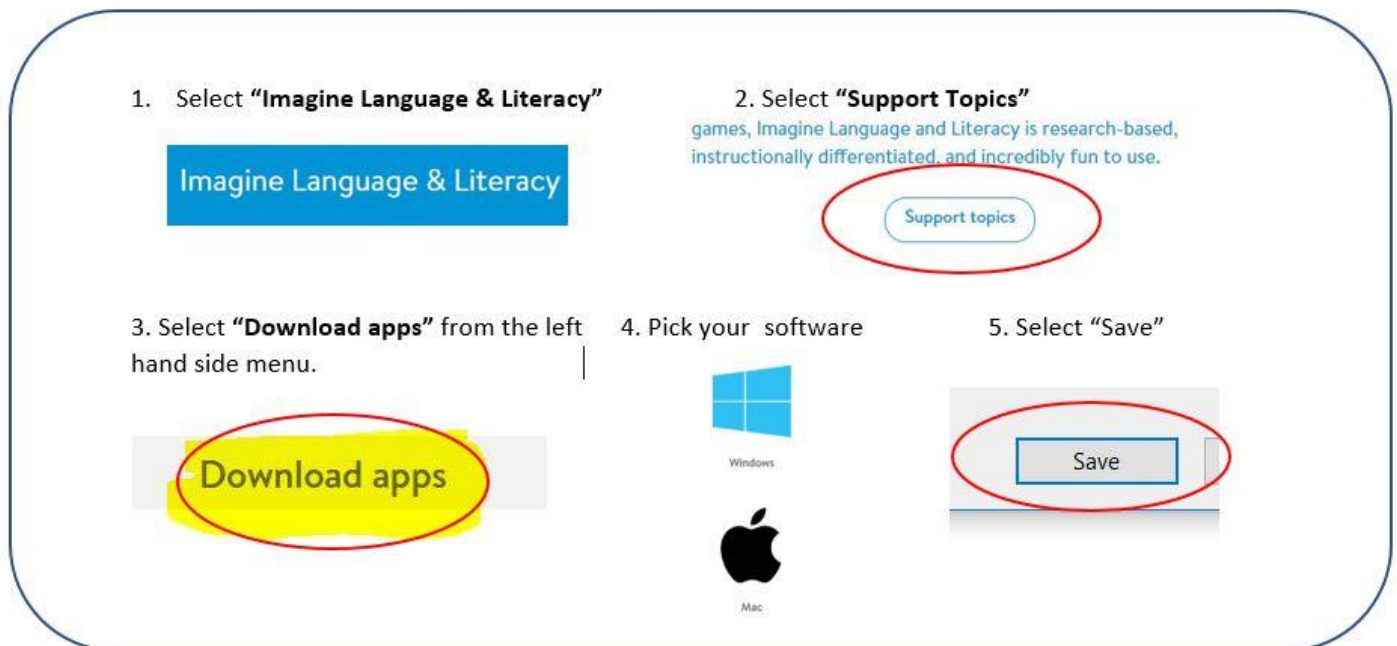

Learning English is an exciting and rewarding experience. This school year your child has the opportunity to begin learning English using computers. Our class will be using a program called Imagine L.

Imagine Learning uses videos, stories, songs, conversations, games, art projects, and recordings to engage learners. Step-by-step, your child will learn how to speak, read, and write. They can now access Imagine Learning from home or anywhere there is Internet access!

On Your Home Computer

Open **INTERNET EXPLORER** or **FIREFOX**.

Type this website address: <http://support.imaginelearning.com>

A large rounded rectangle contains five numbered steps with corresponding screenshots. Step 1 shows a blue button labeled "Imagine Language & Literacy". Step 2 shows a "Support topics" button circled in red, with text above it stating "games, Imagine Language and Literacy is research-based, instructionally differentiated, and incredibly fun to use." Step 3 shows a "Download apps" button highlighted in yellow and circled in red. Step 4 shows icons for Windows and Mac. Step 5 shows a "Save" button circled in red.

1. Select **"Imagine Language & Literacy"**

2. Select **"Support Topics"**
games, Imagine Language and Literacy is research-based, instructionally differentiated, and incredibly fun to use.

3. Select **"Download apps"** from the left hand side menu.

4. Pick your software

5. Select **"Save"**

Input the **SERVER ADDRESS**: imaginelearning.dadeschools.net

At this point your child will enter his or her Student Number and password. (Usually, the student number and the password are the same, but ask your child's teacher to make sure.)

That's it! Your child is ready to start using Imagine Learning.

Remember that to take full advantage of Imagine Learning your child should be using headsets with a microphone or ear buds with a microphone.

The teacher will be able to play back your child's recordings and monitor his or her progress throughout the year.
